

# Value Checker

**Balance reader  
Epurse • Loyalty purse**

**Todos Value Checkers** are used for displaying the balance on your electronic purse card (e.g. Proton, Mondex, Geldkarte, Visa Cash, Danmønt, Klink, Avant etc). You can also view the latest transactions on your card, with date and amount.

**The ergonomic design** and the two push buttons makes it easy for you to scroll menus for different applications.

**view the latest transactions on your card**

**OEM/ODM: For promotion** purposes, you may need your own profile of the Value Checker. You can choose your own

colour and print, even your own design. There are over a dozen different designs of Todos Value Checker. We can also make other adaptations according to your wishes and requirements.

**High quality to** competitive prices: All Todos products are manufactured under strict quality control by our Swedish Quality department. Through our partners in Taiwan with production facilities in Taiwan and China, we can offer you high quality products to very competitive prices.

**Easy to use**

**Durable**

**Low cost**

**Low power consumption**

**Tailor-made for our customers**
